All proceeds collected will go to OCAABA.

LOCATION

Judicate West

1851 E. First St, Ste 1600

Santa Ana

Space is limited.

Register by January 25th.

Want to drink while fulfilling a required MCLE credit? Want to go through a series of DUI tests? Want to find out how much you can drink before being legally drunk?

Officers from the Newport Beach Police Department will conduct a controlled experiment called a "wet lab," to show the negative effects of alcohol on driving.

During this wet lab, 5 to 8 volunteers will be given alcohol, field sobriety tests, and breathalyzer tests at regular intervals to show you the effects of alcohol on driving abilities. This course not only fulfills the entire one-hour requirement for competence credit, but it will also educate you on the increasing levels of alcohol impairment and the tests used to determine a DUI.

Wet lab volunteers will be required to bring a designated driver or use a car service. (Selection is not guaranteed.)

This activity has been approved for Minimum Continuing Legal Education by the State Bar of California in the amount of 1.0 hour of CLE (including 1.0 hour in Competence Issues). Judicate West certifies that this activity conforms to the standards for the approved education activities prescribed by the rules and regulations of the State Bar of California governing MCLE.
